TECH SKILLS

- **Front-End:** HTML5, CSS3, JavaScript ES6, Twitter Bootstrap, Semantics UI, React JS, Responsive Web Development, Gatsby, jQuery, WordPress.

- **UI/UX Design:** Figma, Adobe XD, Wireframe, Prototyping, Responsive Web Design.

- **Teamwork:** GitHub, Trello, Slack, Skype, Google Drive, Zoom.

- **API Integration:** Microservices, Cloudinary, YouTube.

- **Others:** Git, Terminal, Web Hosting, Google Analytics & Maps, Performance Optimization, Remote Working, Computer Repair.

PROFILE

I am an Information Technology Enthusiast. I have a great practical knowledge of designing and building responsive UIs using Figma | HTML | CSS | JS | React and Integrating APIs. I enjoy using the right platform for the job, including WordPress and Gatsby.

I'm experienced in working closely and remotely, creating collaboratively, and coding from design specs. I am self-motivated, enjoy conquering new technical challenges, and create software for clients both remotely and in-person.

PROFESSIONAL EXPERIENCE

2018
-
2020

Vela Business Solutions
Front-End Web Developer
- Building the 'client-side' of web applications and translate company and customer needs into functional and appealing interactive applications.
- Develop and transform mockups into pixel perfect web pages, with consistent behavior across browsers, ensuring the technical feasibility of UI/UX designs, writing clean and efficient code, and building reusable code and libraries for future use.

2020

The Now Enterprise
UI/UX Designer & Front-End Web Developer
- Create mockups and use wireframes, prototypes, style guides, user flows, effectively communicate interaction ideas and transformed them into pixel perfect web pages.
- Production, maintenance and improvement of websites, also optimizing applications for maximum speed and scalability.
