PRODUCT FOR PARTNERS

HRM Assistant is a platform for HRM Consulting and Advisory organizations. The solution allows users to create HRM software solution that can be used in the management of company's HRM processes for optimal results. The solution allows you to define your pricing dynamics and control the look and feel of your web interface. The product characterizes majorly attendance management, payroll management, leave and exemption amongst other feature of mainstream HRM software solutions. Being a product developed by KcySoft as a unique business alliance program to add harmony and balance among businesses in order to build and maintain a qualified worldwide network of HRM Software Solution resellers and system integrators to ensure a successful market and delivery of complete process control solutions to targeted industries. The services provided by our Solution Partners are built around their core competencies and the unique capabilities of KcySoft Inc. Our partnership will be captured under the Reseller partnership model. Resellers resell all or part of the HRM Assistant in its embedded (url defined) name. Technically, the product portal will be customized in Reseller Company's name. A reseller will be responsible for the whole sales life cycle, and also for providing professional services to support training, implementation, technical support and maintenance of the products to clients.

TERMS OF AGREEMENT

Reseller Partners' terms are as follows:

- To become a User/Reseller is absolutely FREE.

- Sign Up at http://hrmassistant.com as a partner

- Portal set up will be done instantly after sign up and
  this will generate partner's web interface.

- Proficiency Training (with certificate of proficiency) will be conducted at a cost N50,000 - Optional

- Software license shall be sold to a Reseller at a 20% discounted rate of the actual value of the product

- To provide support for your customer in real time, you will have to register on a chat platform (tawk.to) that will be added to the website on your request to ease your communication with your customers via your product site -Optional

ELIGIBILITY

This section answers the question of who can be a partner. In this business arrangement, approved partners shall be referred to Managers.

Here are the eligibility consideration for anyone ready to become a Partner;

● The individual must be above eighteen (18) years of age to be considered for the partnership programme.

● Intending partner can be male or female, be of any religious denomination among many other personal traits. We at Kcysoft are not particular about your gender or religious inclinations. We believe this is an opportunity for anyone or anybody.

● Intending partner must be able to speak and express his or herself with basic English as a language of communication.

● Intending Partners may come as a group but will be regarded as one body; implying that all member of the group are seen as one.

- Intending partner may come from any works of life whether as a professional in any industry, student of tertiary institution, graduates among others. We encourage youthful and agile people to join the network because of the benefit inherent in the programme.

- Intending partner must have basic digital skill set and be ready to learn as well as be trained on how the solution works.

- A partner can be located in any part of the world. This solution is created for a global purpose and it is not bounded by location either in time or in place. It will be a delight to have HRM Assistant all over the world.

- Intending partner must be ready to own his or her solution and also provide customer support where need be.

- Intending partner must have a working bank account number registered in his or her name, or in the name of the registered business.

- Although little or no experience is needed, being tech savvy will be a good advantage to intending partner.
